Dear Driving School Green student

Thank you for your interest in our Driving School. Together we will find a way to make sure you pass your driving test as quickly as possible. Driving School Green assumes that you are not yet in possession of a legal theory certificate. Besides following the practical driving lessons, it is also vitally important to start learning the theoretical part of driving.

How does this work?

Very important:

- Always learn with the most up to date study books. Old (borrowed) books will definitely cause problems. One mistake too many and you will fail your exam. Driving School Green always has the newest books available for you.
- The theory package is not just for learning the theoretical part of driving, it's also good practice for the practical lessons.
- After every driving lesson, your instructor will inform you what will be taught in the following lessons. Good preparation is very important.
- We advise you to study your theory book after every driving lesson, this will help you to improve your theory and practical skills.
- Take your studying seriously, turn off your phone!
- Studying for your theory exam isn't easy, but you can do it – it will just take time and dedication. Only take the exam when you feel completely ready.
